### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Various prior arts disclose an alignment system for a medical instrument such as is disclosed in Connelley (US 3135263) and other prior arts such as Franck (US 6,529,765) even disclose a guidance fixture that has a controllable instrument drive, however none of the prior arts anticipate an alignment system with the particulars as claimed by the applicant with a local adjustment device including: a slide body movably coupled to the base; a block slidably attached to the slide body; a collar engaged to the insertion guide and movably retained by the block, the collar and block forming a ball and socket joint between the block and the insertion guide; and a threaded adjuster coupled to the block, the threaded adjuster configured to cause linear motion of the collar with respect to the slide as claimed in the application. In addition above prior arts do not render obviousness to include the novel subject matter stated above.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
